OUTFIT - BRIEF COMPANY OVERVIEW

Structure and Management

Irish owned and incorporated private limited company based in County Mayo, trading as Outfit. VAT registered; RCT registered; fully tax compliant; full comprehensive insurance; RoSPA membership; F.I.T. membership. We specialise in the design, supply, installation and maintenance of a wide range of outdoor fitness equipment and outdoor gyms for general public use, together with a full range designed specifically for wheelchair users. We also carry out all ground works, site preparation, soft-surface installation etc. We have in stock a full selection of accessories: - bins, seating, notice boards etc, providing a genuine **"One Stop Shop"**.

Experience

Over 10 years' experience in outdoor gym design, supply, installation and maintenance; more than 80 sites already completed countrywide. Twenty-five years' experience in various construction projects, groundwork and management. Staff members include fully qualified gym instructors with many years experience in gym management and sport training.

Insurance

Fully comprehensive insurance; Employer's liability - €13m; Public liability - €6.5m; Products liability - €6.5m; Sub-contractor's waiver; Professional Indemnity - €2m; Indemnity to Principals - €2m. No claims to date or claims pending.

Staffing Levels

Experienced and fully qualified ground-works and installation technicians located throughout the country. Overall contracts will be managed by Chris Glynn, Managing Director, with all relevant credentials and requirements, including current safe pass, Health and Safety statements and certifications in place. Gym equipment choice and layout overseen by a qualified sports trainer holding a degree in Recreation and Leisure Management. Accounts and finance managed by staff with over 20 years' experience in accounting, office administration & management.

Health & Safety

All Outfit installations and siteworks are carried out in compliance with the "Safety, Health and Welfare at Work Act, 2005" together with the "Construction Regulations Act, 2006" and all other relevant acts. All of our equipment complies with current relevant European safety standards and carries all applicable certification.
